One day Workshop on Casting Process & its Application in Industries

Department of mechanical engineering has organised hands on Saturday activity for students **CASTING PROCESS AND IT'S APPLICATION IN INDUSTRIES**

Resource Person were: Dr. Vishnu Agrawal

Mr. Rahul Sen

Mr. Mukesh Ganchi

The objective of this training program is to give an overview of the CASTING process which is very popular in manufacturing industries to cast complicated components. Like in automobile industry to cast cylinder block, cranks shaft , connecting rod etc.also Turbine casing ,turbine blades

For this basic steps are Pattern making, moulding of desired product then casting.
