Department of Civil Engineering Geetanjali Institute of Technical Studies, Udaipur

AN EXPERT SESSION ON "MASTERING THE ART OF BUILDING ENGINEERING"

Name of the event/activity: Expert Talk

Academic session: 2024-25

Basic details of the event:

Date & Time: March 28, 2025, 10:00 AM to 12:00 Noon

Place: Civil Seminar Hall, D-Block, GITS

Organized by: Department of Civil Engineering

Participants: All Civil Engineering Students

Objectives of the program:

To equip participants with essential skills in building engineering, focusing on sustainable design, structural integrity, and advanced construction technologies. Enhance problem-solving capabilities for complex engineering challenges and effective project management. Foster innovative approaches to optimize building performance and sustainability.

Importance of the Program:

- 1. This program empowers participants to stay updated with the latest advancements in building engineering, enhancing their ability to design sustainable, resilient structures.
- 2. It fosters practical problem-solving skills, essential for tackling complex engineering challenges, and equips professionals to effectively manage projects, ensuring quality, cost-efficiency, and regulatory compliance.

Vision of Department

Create an academic ambience to develop civil engineering professionals with technical competencies to meet society and industry needs.

Mission of Department

- 1. To inculcate among students with fundamentals of basic sciences & engineering required for civil engineering.
- 2. To impart and empower the quality education required for development of the society and industry.
- 3. To provide state-of-the-art resources that contributes to ethical & congenial learning environment.

Expert name and details:

Ms. Priyanka Arjun (Architect and Founder Priyanka Arjun & Associates)

Outcome of the program

- 1. Develop practical skills in sustainable building design and advanced construction techniques.
- 2. Enhance problem-solving abilities to address complex engineering challenges effectively.
- 3. Apply innovative approaches to optimize structural performance and project management.

News Coverage: Not yet

Submitted by:

- 1. Dr. Manish Varma (HOD, CE)
- 2. Mr. Gaurav Sharma (Asst. Prof.)
