Value Added Training on” Civil Engineering Industry Ready Training”

Name of the event/activity: Value Added Training

Academic session: 2024-25

Basic details of the event:

Date & Time: 01/08/2024 to 17/08/2024 & 9:00 AM to 3:30 PM

Place: Gits Campus

Organized by: Department of Civil Engineering

Participants: All 3rd Year students of 2022-26 Batch

Objectives of the program:

The “Civil Engineering Industry Ready Training” aims to bridge the gap between academic learning and industry practices by equipping students with practical technical skills and hands-on experience with industry-standard tools. It focuses on enhancing core competencies in structural analysis, project management, and construction technology. Additionally, the program fosters essential soft skills to boost employability and career readiness.

Importance of the Program:

It helps them gain practical skills and real-world knowledge that go beyond textbook learning, making them more confident and competent. By aligning academic training with industry expectations, the program significantly enhances students’ employability and readiness for professional challenges.
