“Hands-on Saturday Session: Exploring Linux and AWS – Unlocking Future Possibilities”

Hands-on Saturday Session: Exploring Linux and AWS – Unlocking Future Possibilities The Department of Computer Science organized an engaging session on **16-04-25** in collaboration with **Linux World** and **AWS Academy**. The session was led by a domain expert who shared valuable insights into:

1. Fundamentals of Linux in cloud environments
2. Integration of Linux with AWS services
3. Career opportunities in Cloud, DevOps, and emerging technologies
4. Future possibilities in the Linux and AWS ecosystem

This interactive session helped students understand the core technologies powering today’s cloud infrastructure and motivated them to explore future career paths.
