ABOUT CONFERENCE

Throughout the world, nations have started recognizing that Inter-disciplinary studies are now acting as a catalyst in speeding up the economic activity in efficient products, ease, governance, citizens' empowerment and in improving the quality of human life.The central motive of this conference is to address challenges associated with the effective dispensation of all the latest knowledge being generated in all the fields of engineering and technology with focus on latest trends in Artificial Intelligence, Machine Learning and IOT.

With technology progressing at accelerated pace, young scholars, students, and researchers in the early stages of their career are finding it harder than ever to keep up. This conference aims at helping them get up-to-speed with all the latest advancements and providing a platform to showcase their ability in this challenging environment.

5th International Conference on Multi-Disciplinary Application & Research Technologies (ICMART-2026) will be held at Department of Computer Science and Engineering, GITS, Udaipur.

The conference will provide a platform for technical exchanges within the research community and will encompass regular paper presentation sessions, invited talks, key note addresses and panel discussions. In addition, the participants will be treated to receptions and networking to establish new connections and foster everlasting friendship among fellow counterparts.

SCOPE AND TRACKS

The scope of this conference revolves around bringing engineering, technology, and management research areas synchronically on an indivisible platform. This conference will collectively draw research fellowships from diverse fields in unitedness, to share their research findings and latest ideas. The main intention of this conference is to integrate interdisciplinary inquiry to deliver the best applications.

Various topics of interest for this conference include, are not limited to –

- Computer Science and Engineering
- Artificial Intelligence & Machine Learning
- Big Data Analytics & Data Sciences
- Blockchain Technology
- Electronics and Communication Engineering
- Civil Engineering
- Mechanical Engineering
- Electrical Engineering
- Agriculture Engineering

GUIDELINES TO AUTHOR
